Pasona N A, Inc.  
New York, NY

19 December, 2023

Dear Hiring Manager,

I am writing to express my keen interest in the Associate Software Engineer position at Pasona. With a solid background in programming, technical support, and project collaboration, I am excited about the opportunity to contribute my skills and expertise to your dynamic team.

As an entrepreneur responsible for the business software environments for my companies, I honed my programming skills, particularly in C#, Python, and VB, and gained hands-on experience with SQL, and GitHub. My ability to manage the entire software development life cycle aligns seamlessly with the accountabilities outlined for the Associate Software Engineer role.

Throughout my career, I have successfully executed tasks according to defined schedules, provided technical support to end-users, and collaborated with project managers to ensure the smooth progression of projects. My strong problem-solving and analytical skills have enabled me to interpret business requirements into IT specifications effectively.

The prospect of contributing to the configuration, development, testing, deployment, and ongoing maintenance of software applications excites me. I am confident that my commitment to staying updated with industry IT trends, conducting research, and supporting proof-of-concept initiatives aligns with Pasona's focus on delivering innovative solutions to customers.

I am particularly drawn to Pasona's commitment to excellence, as reflected in the emphasis on planning and organizational skills, team-oriented approach, and continuous learning. The hybrid work model, coupled with the opportunity to contribute to the Business Service Division, aligns perfectly with my career goals.

Thank you for considering my application. I am enthusiastic about the opportunity to contribute to Pasona's success and look forward to the possibility of discussing how my skills align with the requirements of the Associate Software Engineer position.

Yours faithfully,

**J. Elliot Miller**
